

SWEETY RANA

Frontend Developer | React.js | Next.js | TypeScript

✉️ sweetyjind111@gmail.com | 📞 +91-9518648606 | 📍 Noida, India | [LinkedIn: sweety-rana-124414249](https://www.linkedin.com/in/sweety-rana-124414249) | [GitHub: 111sweety](https://github.com/111sweety)

PROFESSIONAL SUMMARY

Results-driven Frontend Developer with 2.5+ years of experience building scalable, high-performance web applications using React.js, Next.js, and TypeScript. Proficient in modern JavaScript (ES6+), component-driven architecture, RESTful API integration, and responsive UI design. Experienced in delivering production-grade projects across healthcare, fintech, and e-commerce domains. Strong command of state management (Redux, Context API), UI frameworks (Tailwind CSS, Ant Design, Material UI), and performance optimization techniques including lazy loading, code splitting, and SEO best practices.

TECHNICAL SKILLS

Core Languages	JavaScript (ES6+), TypeScript, HTML5, CSS3
Frameworks/Libs	React.js, Next.js (SSR/SSG/ISR), Redux Toolkit, React Query, React Router v6, React Hook Form
UI Libraries	Tailwind CSS, Material UI (MUI), Ant Design, Bootstrap 5, Styled Components, Shadcn/UI
State Management	Redux, Redux Toolkit, Context API, React Hooks
API & Data	RESTful APIs, Axios, Fetch API, JSON, Async/Await, Error Handling
Performance	Lazy Loading, Code Splitting, Memoization (useMemo, useCallback), Lighthouse Optimization, SEO
Testing	Jest, React Testing Library, Unit Testing, Component Testing
Build & Tools	Vite, Webpack, Babel, NPM, Git, GitHub, VS Code, Chrome DevTools, Figma
Backend (Basic)	Node.js, MongoDB, REST API Design
Practices	Responsive Design, Mobile-First, Pixel-Perfect UI, Agile/Scrum, Code Review

PROFESSIONAL EXPERIENCE

AbyM Technology | *Software Developer — Frontend*

Dec 2023 – Present

Key Achievements & Responsibilities:

- Developed and maintained multiple production-level web applications using React.js, Next.js, TypeScript, and Tailwind CSS across healthcare and enterprise domains.
- Architected scalable component libraries and implemented state management using Redux Toolkit, improving code maintainability and reusability.
- Integrated RESTful APIs with robust error handling, loading states, and optimistic UI updates for seamless user experiences.
- Optimized application performance using lazy loading, code splitting, and memoization techniques for faster page loads.
- Ensured pixel-perfect, fully responsive UIs across multiple screen resolutions (110%, 125%, 150%) and devices (mobile, tablet, desktop).
- Collaborated closely with UI/UX designers to translate Figma designs into production-ready code with high fidelity.
- Participated in code reviews, Agile sprints, and cross-functional team collaborations to deliver features on schedule.

KEY PROJECTS

Medillumina 2026 — International Medical Conference Platform — *Next.js, TypeScript, Tailwind CSS, Redux, REST APIs*

- Built a full-featured international conference website for Dr. Lal PathLabs showcasing 75+ years of diagnostic excellence, supporting global healthcare innovation.
- Implemented dynamic content rendering for multiple scientific tracks (Oncogenomics, Rare Genetic Disorders, Neurology, Women's Health) using Next.js SSR/SSG for SEO optimization.

- Achieved pixel-perfect responsive design across all viewports with cross-browser compatibility using Tailwind CSS utility-first approach.

Book My Beauty — Salon Management Admin Panel — *React.js, TypeScript, Ant Design, RESTful APIs*

- Engineered a feature-rich, role-based admin dashboard for managing salon bookings, user accounts, and business analytics.
- Built reusable, modular component architecture with Ant Design, implementing dynamic tables, filters, modals, and form validations for complex data management.
- Implemented advanced state management with Redux to ensure smooth interactions across multi-step workflows and real-time data updates.
- Wrote clean, maintainable TypeScript code with strict type safety, improving developer experience and reducing runtime errors.

ABHA — Ayushman Bharat Health Account (Digital India Initiative) — *HTML5, CSS3, JavaScript*

- Contributed to the Indian Government's Digital Health Mission by developing a secure web platform enabling citizens to create and manage Ayushman Bharat Health Account (ABHA) IDs.
- Implemented secure authentication mechanisms to protect sensitive personal health information with clean, accessible UI design.
- Designed intuitive, user-friendly interfaces using HTML5, CSS3, and vanilla JavaScript optimized for users across urban and rural demographics.

Centroid — Operating & Equity Partnership Platform — *Next.js, TypeScript, Tailwind CSS*

- Developed a fully responsive, enterprise-grade web platform for capital management and equity partnership workflows using Next.js and TypeScript.
- Designed scalable UI components translating complex financial concepts into intuitive digital experiences with cross-device compatibility and WCAG accessibility.

Oncquest Laboratories — Healthcare Platform — *React.js, Redux, REST APIs*

- Built a scalable healthcare portal handling complex data flows including test listings, diagnostic reports, and user account management with Redux for global state management.
- Created reusable, modular React components integrated with APIs for dynamic data rendering, with lazy loading for optimized performance.

EDUCATION

Chaudhary Ranbir Singh University | *Master of Computer Applications (MCA)* 2023
Percentage: 87.37%

Priyadarshini Indira Gandhi Govt. College For Women | *Bachelor of Computer Applications (BCA)* 2021
Percentage: 72.59%

SOFT SKILLS & INTERESTS

Problem-Solving • Analytical Thinking • Team Collaboration • Communication • Quick Learner • Leadership
• Attention to Detail • Agile/Scrum Mindset • Self-Motivated • Continuous Learner
